INSTALLATION INSTRUCTIONS

1. Make sure firearm is unloaded. Remove magazine and double check that chamber is empty. (See "Four Basic Rules Of Firearm Safety" in Owner's Handbook.)
2. Remove existing grips. Retain stock screws and star washers to be used with Lasergrips®.
3. Place one battery straight down into battery well on each side, with the flat, (+) side visible.
4. Align the right panel with the firearm, insert stock screws and tighten the panel to the frame. Again, the star washers may need to be installed.
5. To activate Lasergrips, slide the master ON/OFF switch forward to the ON position. The switch is located on the bottom left side of the Lasergrips. Press pressure activation pad located in center of rubber front strap directly beneath trigger guard to activate the laser.
6. Confirm that laser and iron sights are in alignment. Laser dot should rest on top of front site post with correct iron sight picture. Lasergrips are sighted-in at the factory to 50 feet, but can be fine-tuned to any point of impact by adjusting for windage and elevation. (See Laser Sight Owner's Handbook for complete sighting information.)

LASER SAFETY LABELING

IMPORTANT: LASER PRODUCTS MUST ONLY BE OPERATED WITH THE SAFETY LABEL APPLIED TO THE FIREARM.

Labels could not be affixed to the product but are supplied and must be installed as indicated below:

- A. Attach the "Danger" warning label to the outside of the firearm.
- B. Attach the "Aperture" warning label with the arrow pointing to the laser aperture.

Use caution when activating the laser to avoid direct eye exposure, which can result in permanent eye damage. Follow all precautions as outlined by the firearms manufacturer. Keep this and all firearm related products locked and secured from children or other unauthorized users.
