Since 1994 Crimson Trace has been the industry leader in laser sighting technology. Today, we partner with more firearm brands than anyone else. We are proud to be the #1 choice of more than one dozen manufacturers who pre-install laser sights on their firearms. Together we are able to offer the consumer the ultimate personal protection package, enhancing their ability to protect family, home and country. We thank our partners for helping achieve our vision of making laser sights standard equipment on all personal protection firearms.
